

Tacy - I just wanted to say thanks for your work on the RecCen Governance Board. I very much appreciate that you easily balance your responsibility to your 'staff' constituents with your belief that our beautiful Recreation Center also plays a role in the larger Santa Barbara community. There is a delicate balance between 'rights' and 'doing right' when managing a student-funded and student-governed facility. With planned construction at two of the three local high schools, this issue of high school students needing practice and game space will continue for a couple of years. Thank you for guiding today's discussion toward building good will - among our board members and in our community.

Wayne

Recreation Center Director  
U.C. Santa Barbara
