

To: SBENGRHONORS-L@LISTSERV.UCSB.EDU

Welcome to the New Engineering Honors Program!

Please read the attached document explaining the benefits and responsibilities for members of the Engineering Honors Program at UCSB.

The “required” honors units and community service detailed in the Honors attachment will be loosely applied for the 2006-07 academic year, but the Associate Dean and I hope that you will participate in an Honors level academic endeavor during Spring quarter if you can.

Additionally, there will be an on-campus opportunity to earn community service hours at the UCSB Open House, Spring Insight, on Saturday, April 14. A request for volunteers will be sent to this Listserv the first week of Spring quarter.

The Honors Program website is currently under construction, but you will be directed to the site during Spring quarter.

LOGO Contest!!! A call for suggestions for an Honors Program Logo design will also go out during Spring quarter.

If you have any questions, suggestions or concerns about the College Honors Program, please email: honors@engineering.ucsb.edu

As you power through the end of Winter Quarter, remember to eat healthy food and drink plenty of water, try to get some decent sleep and STUDY STUDY STUDY and then have a wonderful Spring break!

Sincerely,

Tacy Costanzo
Advisor for the Engineering Honors Program
