INTENT TO COMPLETE THE ENGINEERING HONORS PROGRAM

Name:

Perm:

> In order to receive the Honors Program Scholar Designation at the time of graduation and notation in the commencement publication, please complete this form and deliver it to the College of Engineering. The deadline to submit this form is **May 1ˢᵗ.**
>
> *Note: This form **must** be submitted by the Spring deadline if you are not graduating until summer or fall but wish to be included in the June honors commencement recognition.*

Please indicate your post UCSB plans, i.e. graduate school (where, when), employment (where) etc.:

In order to complete the Honors Program and earn the Honors Program Designation at graduation, students admitted to the Honors Program must do the following:

1. Complete six total honors units during the junior and/or senior year.

   - Departmental 196, 197, 198, 199 or graduate level courses in STEM fields with grades of B or higher apply as honors units.
     - *Notes: Capstone participation/courses do not apply to honors credit, nor do graduate courses taken to satisfy requirements for a graduate degree.*

   - **Education Abroad Program participants:** The Honors Program will count EAP courses as honors course work, as long as you take Engineering related courses (i.e. major). The amount of honors coursework completed corresponds to the number of units earned per course. You may earn all 6 units while on EAP, as long coursework is Engineering appropriate.

2. Graduate with a 3.50 overall UC GPA.

3. Complete the community service requirement.

   10 hours of community service each academic year you participated in the program.

4. Complete this form and submit it to the College of Engineering by the deadline (see box at top for details).

We will use your @ucsb email address to notify you of the status of your request.
